inside the spacious entranceway you will notice how the vaulted ceilings enhance the bright & open floor plan. Most certainly a comfortable space to relax with the whole family! Imagine yourself sitting by the glow of the gas fireplace on a chilly evening either watching TV or admiring your seasonal decor. Turning into the well-planned kitchen, you see the sleek maple cabinets,, a walk-in pantry along with the recently added 3 door Stainless Steel fridge (2023).

Whether you choose to eat at the breakfast bar, the open dining area or step outside to the maintenance free deck and enjoy some fresh air with your meal.

The master bedroom easily fits a king size bed with room to spare. Inside the walk-in closet youâ€™ll have plenty of space for storage; whether hanging your clothes or putting away your many treasures atop the shelf or inside the built in drawers.

The versatility of the second upstairs room is, it can easily be used as a bedroom or an office space - you choose!

Heading down from the main, you will find a large family room, the biggest bedroom and another full bath. Enjoy the streams of natural light flowing through the extra-large windows with ledges wide enough for plants, flowers or pictures.

The lowest level boasts lots of room for storage with functional built-in metal shelving racks and a well lit massive crawl space.

This entire level easily can be developed since 2 big egress windows are already in place.

The expensive upgrades have already been done for you! The roof was re-shingled in 2019 and a new furnace and hot water tank were put in last October. Most appliances as well as CO2 and smoke detectors have been replaced in the last 9 years including: the washer/dryer combo (2023) and the vented overhead microwave (2019).

Bonus: roughed in "in floor heat" is found in home and garage.

As for the Garage it is more than oversized, it's supersized in both height and width. At 26 ft. x 26 ft. (640 ft²), allowing for 2 large vehicles, room for a workshop + all the toys. It is wired for 220 and has roughed in-floor heating (just like in the house) For quick and easy access to seasonal storage, there is a shed to securely store away your items for yard use.
